To Whom It May Concern:

This letter is in support of F. Jennifer Ludwig that is presently a Master Student at WAAC. I have known Jennifer since she was one of the Cal Poly Consortium students at the Center a few years ago and since then she has taken several classes and design studios with me.

If we consider architecture as a continuous thread that sews together the products of intelligence, strength, science and art in a way that confronts time, we can consider Jennifer not anymore as an apprentice, but ready to be as journey(wo)man embroiderer stitching in her designs poetic values that touch the meaningful aspects of human existence.

Besides being a talented designer, Jennifer is an enchanting person full of humanity and clever intellectual assets. She is both a swift and a measured thinker and I am looking forward to her contributions to the making of architecture. I really strongly support her.

Sincerely Yours
